Forklift Jacks

IDEAL FOR LIFTING FORKLIFT TRUCKS TO OTHER VEHICLES

A sturdy, purpose built hydraulic toe jack. Ideal for maintenance work on forklift trucks.

- 4000kgs capacity.
- Heavy long life construction.
- Hydraulic lifting pump with overload valve.
- Low pick up point from toe.
- Compact size, with removable handle.
- Supplied with test certificate.
- Manufactured to A.N.S.I. standards with CE and TÜV approvals.

Important:
Not to be used for lifting a forklift truck or other vehicle having a total weight of over 6,000kgs.

When lifting a forklift/vehicle, always ensure that at least two wheels remain in contact with the floor.
